

**NOTICE OF STUDY COMMENCEMENT  
DETAIL DESIGN AND CLASS ENVIRONMENTAL ASSESSMENT  
Highway 62 and Prince Edward County Road 1 Intersection Improvements, GWP 4077-20-00**

The Ontario Ministry of Transportation (MTO) has retained Stantec Consulting Ltd. to undertake a Detail Design, and Class Environmental Assessment (Class EA) Study for intersection improvements at Highway 62 and Prince Edward County Road 1, in Huff's Corners in Prince Edward County. The Preliminary Design and Class EA for intersection improvements at Highway 62 and County Road 1, completed in 2024, identified a roundabout as the Recommended Plan. This Detail Design study will include design refinements to the roundabout Recommended Plan, development of construction staging plans, consultation, and development of environmental protection and mitigation measures.

**THE PROCESS**

This study is a "Group B" project under the *Class Environmental Assessment (EA) for Provincial Transportation Facilities (2000)* and includes undertaking environmental and engineering field investigations and seeking input from stakeholders, external agencies, Indigenous communities and the public.

One Public Information Centre (PIC) is planned, and the notice of the PIC will be advertised in local newspapers and sent to the study contact list. Upon completion of the Detail Design study, a Design and Construction Report (DCR) will be prepared and filed for a 30-day public comment period. The DCR will document the Class EA process, the detail design study, the consultation program, potential environmental effects and the final mitigation plan. At that time, a Notice of DCR Submission will be published in local newspapers and sent to the study contact list.

**COMMENTS**

You are encouraged to participate in the study and to provide comments in writing to the project team. If you wish to have your name added to the project mailing list or have questions about the study, please contact:

You are encouraged to visit the project website, [www.hwy62pec1.ca](http://www.hwy62pec1.ca), where project information including study notices, background information, PIC displays, and the DCR will be made available as the study progresses. You can also submit comments to the project team on the project website.

If you have any accessibility requirements in order to participate in this project, please contact one of the Project Team members listed above. Comments and information are being collected to assist the MTO in meeting the requirements of the *Ontario Environmental Assessment Act*. Information will be collected in accordance with the *Freedom of Information and Protection of Privacy Act*. All comments will be maintained on file for use during the study and, with the exception of personal information, may be included in study documentation and become part of the public record.
